Protect Yourself!

Ask yourself this question...

Do you know the names of your local OHS employee representatives?

If not, check the local OHS bulletin board. As per CLC Part II Section 125. (1) (z.17) the employer must post and keep posted, in a conspicuous place or places where they are likely to come to the attention of employees, the names, work place telephone numbers and work locations of all of the members of work place committees or of the health and safety representative.
